Prefazione

Flusso quotidiano di ciò che di noi sfugge, svanisce e non si ripete. Il **blog** di Ludiko raccoglie istanti ed istantanee di chi Ludiko è. La creatività va allenata nel piccolo quotidiano. Tra mente, spirito e cuore, deve farsi pratica di micro-attenzione, concentrazione, espressione. Il pretesto, lo spunto è spesso vicino a noi, ma bisogna notarlo, sentirlo, farlo proprio e renderlo parte di noi, delle nostre emozioni.

Il senso può essere pre-intenzionale oppure scoprirsi durante il processo di elaborazione di uno spunto-appunto, segno-disegno. La versione **e-book** del blog permette una consultazione rilassata e distesa, le didascalie pubblicate online si arricchiscono con annotazioni degli autori per rivelare sensi e sensazioni e guidare il lettore lungo una storia multi-sensoriale e stimolante.

Gli oltre 1400 posts raccolti in due di vita del blog sono raccolti in 6 volumi. La sequenza cronologica originale è mantenuta e, nella versione libro, rafforza la percezione di sfogliare un diario in cui i giorni scorrono fluidi, tra impressioni di sè sempre diverse.

Ludiko è un universo artistico multidisciplinare che ha per obiettivo la diffusione della filosofia kidult e la riscoperta del gioco come forma di comunicazione con il proprio "io" più profondo-creativo-infantile.

Introduction

*The everyday flow of what in us tends to slip, vanish, and never repeat again. Ludiko's **blog** was created to collect the moments and snapshots of those who are like Ludiko. You need to train your creativity on a daily basis. Between the mind, the spirit and the heart, one needs to practice his/her micro-attention, concentration and expression skills. A pretext, the essential clue is at your reach, but you need to notice it, hear it, make it real and part of your emotions. The sense can be deliberate from the beginning or emerge during the process of elaborating the key-idea, the symbo-sign. The **book** version of the blog allows a more relaxed and spread-out consultation, the information published online is enriched with some of the authors' notes to reveal senses and feelings and guide the reader through a multi-dimensional, stimulating thread.*

Over than 1400 posts taken from the two years of life of the blog are collected in 6 volumes. The time order is respected to stress the sense of going through the pages of a diary where each day flows through the next with everchanging perceptions of oneself.

Ludiko is a multitiered artistic universe that has as main aim the circulation of the kidult philosophy and the re-discovery of toys and playing as a form of communication with one's inner and profound-creative-childlike self.

Here's Bigattino, a happy font by Ludiko Kid. Enjoy it!

"Il suo nome deriva da una specie di larva usata per la pesca. All'interno di un barattolo i bigattini sono sempre molto eccitati e movimentati. Qualcuno di loro, purtroppo morto diventa, nero e resta nel barattolo tra gli incessanti movimenti di tutti gli altri."

"Bigattinos are a kind of grub used for fishing. Inside the tin, the bigattinos are always very excited and active. Some of them unfortunately die, turn black and are left in the tin in the middle of the others, which never stop moving."

"Non è stato facile, ma la stesura del manifesto è stata fondamentale. In agosto sono fuoriusciti i primi 10, poi si è aggiunto l'undicesimo. Hanno la potenza di sintetizzare i significanti e di agevolarne il significato. Sono un importante riferimento concettuale entro cui riconoscersi, relazionarsi, riferirsi."

"Dopo le asfissianti coccole di Pupsintown, l'universo ludiko sentiva il bisogno di ritrovare il proprio equilibrio. Buuuuh IO

Posted by: paka in: ludiko

Il Ludiko Resident Daniel Rossi ha indagato il rapporto bambino/buio tra paura, emozione e mistero. Il video Buuuuuh IO-children In The Dark racconta come nel buio la realtà si deforma, lasciando spazio a pulsioni e visioni che amplificano le nostre insicurezze. Si perde il controllo, si perde lucidità, prigionieri di una realtà che non esiste se non nella nostra mente... poi si accende una luce e le paure svaniscono... il buio ritornerà, ma non le paure.

Ludiko Resident Daniel Rossi investigated the relationship between children and darkness in the area of fears, emotions and mystery. The video "Buuuuh IO-children in the dark" shows how darkness can distort reality and our sense of insecurity can take over. You lose control and clarity of mind and become the prisoner of the reality of nonexisting... until a light switches on and suddenly fear disappears... darkness will come back, fear won't.

Porte monolitiche che segnano il confine domestico tra due mondi: quello reale e quello interiore fantastico. Una soglia dimensionale da attraversare o su cui stazionare.... per mettersi in contatto con la propria parte irrazionale/fantasia.

Monolithic doors that mark the domestic borderline between two worlds: the real one and the fantasized interior one. A dimensional threshold to cross or where to stay... in order to be in touch with one's irrational/fantasy side B.

Listening to Sarah's voice.

"Ci sono casi che ascolti una canzone che è in quel preciso istante ti penetra e ti rende creatura vibrante... Change og Herat by El perro del mar: canzone che incanta, che ti sospende, al cui ascolto anche un cane riuscirebbe a galleggiare immobile nel mare."

"Sometimes you listen to a song and it goes deep down inside of you and turns you into a vibrating creature... Change of Heart by El Perro Del Mar: an enchanting song, a song that keeps you suspended. Listening to it, even a dog could float on the sea without even moving."
